

APRIL MONTHLY SPECIAL

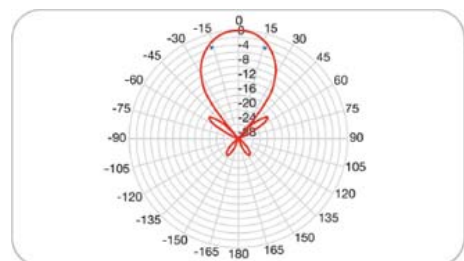

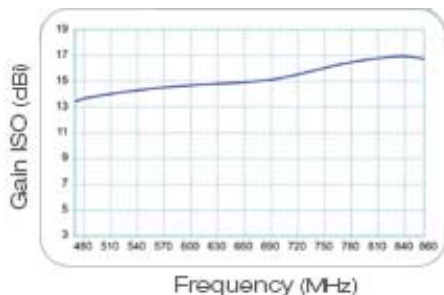

SIGMA6

A new range of terrestrial antennas unique in performance & design, Fracarro Sigma is perfect for the reception of Digital Terrestrial & Freeview television signals.

Patented loop directors & dipole, with double size corner reflectors deliver high directivity with an almost total absence of side-lobes - excellent for reducing reflections.

Sigma antennas feature pre-assembled elements, mast clamp & reflectors enabling tool free installation. F connector & a unique weather boot come as standard.

Item Code	SIGMA 6HD 213201	
Elements	No.	6
Band		UHF
Channels		28 - 69
Bandwidth	MHz	470 - 862
Maximum gain	dBi	17
Front-to-back ratio	dB	32
Return loss	dB	-18
Beamwidth (-3dB)	°	± 18
Wind load at 120Km/h (720N/m ²)	Kg (N)	23 (225.4)
Connector	type	F
Impedance	Ohm	75
Maximum Mast Ø	mm	60
Dimensions (L x W)	cm	92 x 63
